

Early Care Workgroup Meeting  
March 9, 2010  
Human Service Building

### **Month of the Young Child (MOYC)**

April is MOYC, and one of the Early Care Workgroup's objectives is to champion the importance of high quality early care. The workgroup discussed using the MiAEYC information that is distributed for MOYC for PSA's on the radio and in the newspaper. Each week in April (starting the 5<sup>th</sup>) would highlight information about a different area of development, as reflected on the MiAEYC website, and how parents and caregivers can boost that development. It was suggested that Lenawee Great Start put information on their website to highlight the four weeks and link to the MiAEYC website.
